2009 Subscription Rates

Canadian Aeronautics and Space Journal Canadian Journal of Remote Sensing

The 2009 subscription rates for CASJ and CJRS are shown in the table below. Access to the E-journal format and delivery by mail in CD-ROM format are both included for the prices shown.

A subscription to a print version of CASJ or CJRS is not available. The CD-ROM and E-journal are the only versions available.

The first CD-ROM mailed for CJRS in 2009 will include Vol 35/No 1, the February issue. The next CD mailed will include **BOTH** the February issue and Vol 35/No 2, the April issue. Successive CDs will continue to consolidate **ALL** the issues in a calendar year. Vol 35/No 6, the December issue, will include all six issues of 2009, plus a consolidated author and title index for the year.

The same approach applies to the four issues of CASJ (Vol 55) that will be published in 2009.

Subscribers must supply IP addresses so that access to E-journals can be enabled.
